

Artek: 60 Stool

Dimensions: Height 440mm, Width 380mm

Designed by Alvar Aalto in 1933, Stool No.60, is one of the clearest representations of functional furniture design. In its simplicity it consists of three L-shaped legs, whose manufacturing technology was patented, and a circular seat. The secret of its success lies in its legs' unique bends, quality and finishing.

Available with Natural Birch top, White or Grey laminate, or Black or Red manoleum. Stackable, and suitable as a stool or a side table.
